### Governance

### Campus-Wide Infrastructure: Considerations for Where to House Bonner

- **Governance** (best department or division)
  - Student affairs vs. academic affairs
  - Other innovative options
- Access to resources
- Visibility and location
  - Access to students
  - Access to faculty
  - Culture of service
- Institutional respect and future promise

### Campus-Wide Infrastructure: Considerations for Where to House Bonner

Туре	Strengths	Concerns	Other
Student Affairs	Fit with broader departmental mission; student-led programs; can reach larger scale	Fails to become integrated at the institution's core; lack of curricular change; co-curricular devaluation	Many campuses have started from this vantage point
Academic Affairs	May build around the capacities of faculty & students and, with care, meet more complex community desires	Service can be episodic if only tied to courses; lack of student voice and leadership; staff driven	Having program under Academic Affairs does not guarantee curricular change
Student & Academic Affairs (separate but coordinated)	Campus can provide a broader range of student & faculty involvement and types of civic engagement	Lack of coordination can lead to frustration; students often left to navigate options on their own	This strategy may be equally effective; it largely depends on the leadership & resources
Integrated Center ('hub' where curricular & co- curricular are combined)	Leverages resources from & change within curricular and co-curricular; high potential for campus-wide institutionalization	Coordination and decision- making may involve more time & people

### Campus-Wide Infrastructure: Institutional Support—Some Key Levers

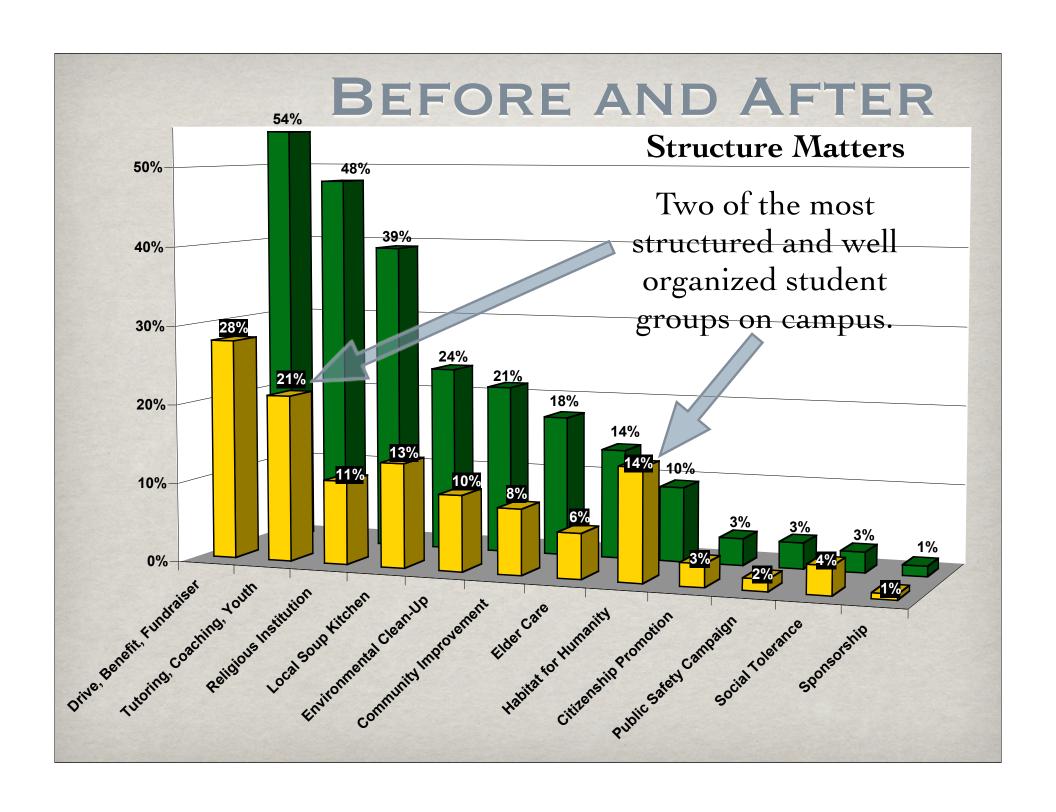

- Bonner Director/Program access to senior leadership
- Financial support for students to engage in service
- Visibility in online and written communications (from recruiting to alumni news)
- Faculty involvement and curriculum reform
- Central place for service & civic engagement in defining mission, strategic plans, and budget priorities

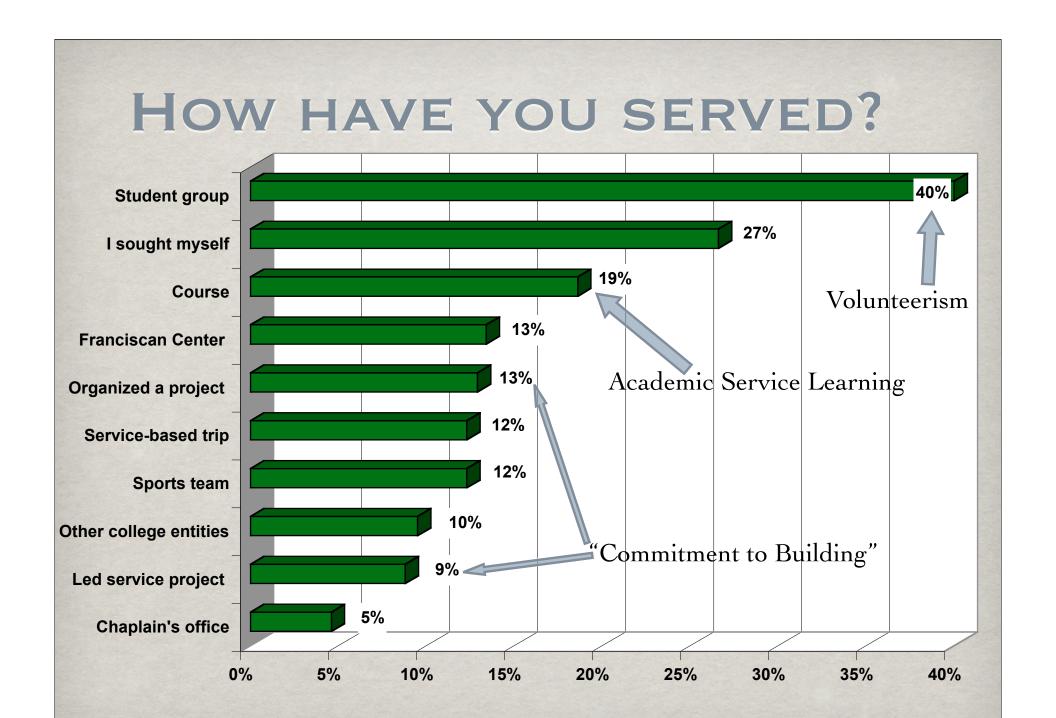

### Campus-Wide Infrastructure: What You Can Do

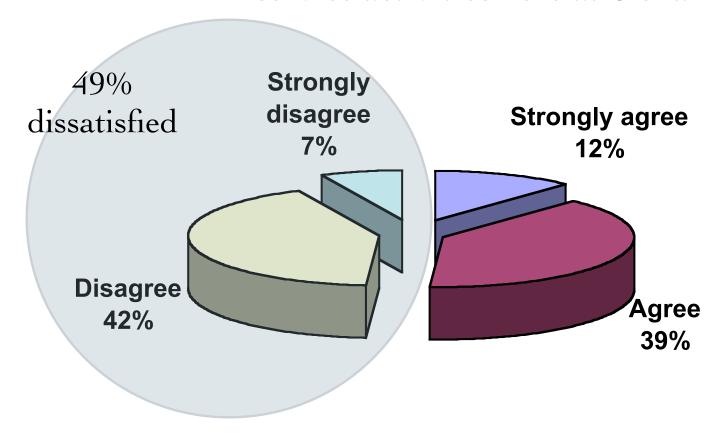

- Strategically build your staff—starting with students
- Creatively consider new programs—from more Federal Work Study placements to partnering with national organizations
- Integrate, integrate, integrate
- Communicate frequently, positively, and strategically with those above you—manage up
- Build a core constituency or a working committee of key stakeholders to plan next stages

"I am satisfied with my personal level of involvement in service activities here at Siena."

### Working Session

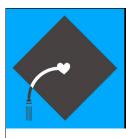

### Campus-Wide Infrastructure: Self-Assessment & Evaluation

- **Collaboration Across Campus:** consistent collaboration between the Bonner Program and other entities on campus, including student life/affairs, academic affairs, career services, financial aid, development, the President's office, and other major departments
- Campus-wide Student Participation and Voice: student participation in service and civic engagement campus-wide; dynamic culture of service permeates the campus and students' academic and co-curricular work; student voice is present in many levels
- Awards and Recognition: institution clearly recognizes contributions and achievements of students and community members involved in service
- **Public Relations and Visibility:** college/university has strong public relations presence in which community service and civic engagement is visible; civic engagement center and Bonner Program easily found on website; coverage in major publications
- **Institutional Recognition:** community service and civic engagement are central and defining features of the institution's approach to providing a developmental and educational experience for students and for fulfilling its broader mission
